Senior Support Technologist		Posted: May 26 <sup>th</sup> 2008	
<b>Salary:</b>	Open	<b>Location:</b>	<a href="#">Salisbury, Maryland</a>
<b>Employer:</b>	<a href="#">The Siesta Group North America Inc.</a>	<b>Type:</b>	Full Time - Experienced
<b>Preferred Education:</b>	4 Year Degree		

### Description

The Siesta Group North America Inc., a progressive sleep diagnostics services company, located on Maryland's beautiful Eastern Shore, just 20 minutes from the Atlantic coastline beaches in Ocean City MD and 20 minutes in the opposite direction to the Chesapeake Bay.

The Siesta Group North America Inc. is seeking candidates for our current open position. We perform both Clinical and Research Studies in our organization, utilizing our proprietary software, Somnolyzer 24x7.

The Senior Support Technologist position requires prior experience in scoring polysomnograms and general IT infrastructure, and is under the direct supervision of the VP/Director of North American Business. You will provide services including scoring and generating final reports, purchasing of supplies and equipment, and performance of all types of daytime sleep studies as needed. Board eligible techs are welcomed to apply. RPSGT is preferred. The salary range for this position is negotiable, including an excellent benefits package, depending on level of experience.

The Senior Support Technologist position may require travel between various Sleep Center locations as necessary; start up support and IT infrastructure development at the customer facility, as well as limited business management as directed. The employee would also be required to undertake additional training under the supervision of our Sleep Experts in Vienna, Austria. International travel would be required for this training.

We are welcoming competitive candidates with prior sleep lab experience, including, but not limited to patient set-up, recording all night polysomnography, CPAP/Bi-level/O2 titration studies, prior training in scoring of sleep recordings, and the ability to troubleshoot all types of diagnostic equipment and acquisition software, and other duties as required.

**NOTES:** US Residents Only. Salary is negotiable based on experience and subsequent interview(s)

### Requirements

Experience with multiple acquisition systems will be preferred.

Additional skill requirements for these positions are:

Bachelors Degree in an applicable science would be preferred.

Experience in using Microsoft Office tools such as, Word, Excel, Powerpoint, Outlook.

Minimum of 2 years Sleep Lab experience.
